Summary

Final-year Computer Science undergraduate specializing in AI & ML, focused on building AI-powered and full-stack applications. Experienced with Java, Supabase/PostgreSQL, FastAPI, React, and AWS, with hands-on experience in REST APIs, AI integration, and application development. Developing end-to-end applications while exploring practical applications of AI, with a strong interest in Full Stack Development and AI/ML Engineering.

Technical Skills

- **Languages:** Java, JavaScript, SQL
- **AI/ML:** CNNs, Matplotlib, TensorFlow, PyTorch, Model Training & Evaluation
- **Backend:** Node.js, Express.js, REST APIs
- **Frontend:** React, Tailwind CSS
- **Databases:** SQL, Supabase
- **Tools & Platforms:** Docker, Git, GitHub, AWS(S3, EC2, Lambda), Model Deployment, CI/CD

Experience

Cloud Computing Intern

Apr 2026 - May 2026

VDart Inc

Tiruchirappalli, TN

- Worked with AWS services and explored their applications in compute, storage, networking, and scalable cloud solutions.
- Developed an understanding of virtualization, resource management, and cloud infrastructure.
- Applied cloud concepts through technical assignments and practical learning during the internship.

Full Stack Developer

Jul 2024 - Present

- Developed responsive web applications using React, JavaScript, HTML, CSS, and Tailwind CSS.
- Implemented backend functionality, authentication, and database/storage integration using Supabase.

Projects

AI Accessibility Hub

- Built responsive frontend interfaces using React and Tailwind CSS and integrated backend REST APIs using FastAPI.
- Integrated AI capabilities for document analysis and intelligent assistance, with Supabase used for authentication and data/storage management.

Echolve - Voice Emotion Detection

- Integrated speech-to-text and emotion recognition technologies to process audio and generate meaningful insights.
- Built the application using a frontend-backend architecture with API-based communication between the user interface and AI services.

Education

Bachelor of Technology, Artificial Intelligence and Machine Learning

2023-2027

Kalasalingam Academy of Research and Education, KrishnanKovil

CGPA:7.93/10

Higher Secondary Education,

Government Girls Higher Secondary School, Sankarankovil

2021 - 2023

83%

Certifications

- **AWS Skill Builder** - Amazon EC2, Amazon S3, Amazon VPC, and AWS IPv6 Fundamentals.
- **Agnirva AI Internship Program** - 80-Hour AI Program
- **Udemy** - Full Stack Development
